		Dept.	ENGINEERING
	KWHMETER RM	Section	E&I
		Revision	0
		Effective Date	01-Sep-19
		Page	1 of 2

Identifikasi / <i>Identification</i>	
	
Identifikasi power meter yang mati (<i>Identify the powered off power meter</i>)	
Pengecekan / <i>Checking</i>	
	
Cek sumber tenaga 1 fasa yang masuk ke power meter (<i>check the 1 phase power source which connected to power meter</i>)	Lakukan percobaan reset sumber tenaga dari CB yang terhubung ke power meter, bila masih mati, ajukan permintaan penggantian power meter (<i>Reset the power source from CB which connected to power meter, if the power meter still turned off, ask for power meter replacement</i>)
